Carl,
Thank you for keeping EPA in the loop. We sent a 104(e) information Request to New Mission LLC on December 4, 2012. We will be examining their responses in February.

Virginia

We've been working with New Mission LLC and its contractor, Terracon to complete the requirements scheduled in the Corrective Action Plan. Terracon plans to sample downgradient ground water wells during the last week of December. The results and their report should be sent to us 2 - 3 weeks into January.
